Church News

Seventh-Day Adventist Church
William E. Carpenter — Pastor
Sabbath School at 9:30
Worship Service at 11:00 o'clock
Mid-Week Prayer Service — 6:00 o'clock.

Sabbath, Mar. 30, Sabbath School opened with the usual 10 minute song service beginning promptly at 9:30. Mr. R. E. Hicks, song leader; Mr. Roland Nordstrom, pianist.

The Supt., Mrs. Vaden Townsend gave a comparative report of the first quarter of 1962 -1963. There were considerable gains in offerings, also in the study Sabbath School lesson study plan then next came the secretary's report, by Mrs. Walter Young followed by the Foreign Missions report by Mrs. G. I. Watt.

Just before the 30 minute class period the members of the Kindergarten and Primary Division came in and recited from memory verses for the entire quarter and sang a song entitled "Happy Happy Home".

Right after the class period our Home Missionary leader, Mrs. Ruby Nordstrom brought us an encouraging message telling of many acts of witnessing for Christ in our daily association with others.

Secretary, Mrs. Walter Young reported near the close of the service that a sizable offering was received for the 13th Sabbath Missions overflow, which will be sent to the South Pacific to help meet the needs of that field this quarter.

After singing the beautiful old hymn "Sow ng in the Morning," we were dismissed by prayer by Mr. G. I. Watt.

Next Sabbath, April 6th, the Communion Service will be observed. Come and join us, you will receive a hearty welcome.

Liberty Baptist Church
Neighborhood prayer meetings for Revival which begins Sunday, April 14, with Rev. J. Marshall Walker, Evangelist.

Monday night, April 8, 7:30 p. m. Place: Mrs. C. C. Poe; Leaders, Terry Bonner, Mrs. Chick; Place, Mrs. O. C. Hall; Leaders, George Hamlett, Jerry Smith; Place: Mrs. David Reid; Leaders, Bernard Richardson, John Hall.

Tuesday night, April 9, 7:30 p. m. Place: Mrs. Edwin Carter, Leaders, A. R. Harwood, Jr., Murrell Ferguson; Place: Mrs. Thelma Caldwell; Leaders, W. D. Morris, Pastor Hall; Place: Mrs. Jerry Smith (New Home Leaders: C. C. Poe, Thomas Richardson; Place, Mrs. Gilbert Mays, Leaders: Charlie Johnson, J. M. McAden.

Community Easter Sunrise Service

6:30 a.m.

A Community Easter Sunrise Service is being planned for April 14 to be held in the Appomattox Court House Presbyterian Church at 6:30 a.m.

The Rev. Virgil L. Hudson, pastor of the Evergreen Baptist Church, will bring the Easter morning message. Members of the Youth Choirs of all the local churches are encouraged to come and sit together in the front of the church to assist with the singing of the Easter songs. All the members of all the local churches are cordially invited to this early morning Easter Service.

Thursday, April 11 — 7:30 Mt. Comfort Family Night

Memorial Methodist Church
PALM SUNDAY will be observed at Memorial with two special services.

At 11 o'clock, the Sanctuary Choir will present two Palm Sunday Anthem: "Open the Gates" and "The Palms" under the direction of Mrs. Claude W. Smith Organist. The Minister's sermon subject will be "Thy Glory of the Commonwealth" and the service will close the congregation partaking the Lord's Supper elements.

The Chapel Choir of Memorial Methodist Church will present a cantata, "The Cross of Christ" by Lansdon on Palm Sunday at 7:30 o'clock with Mrs. Murrell Ferguson as organist.

The public is cordially invited to attend. The program and those participating are as follows: I "O Jesus, We Adore Thee" — Judy Goodrich and choir. The Last Supper — Herbric Pulliam, 3. "Gethsemane" — Faye Fuller and Choir. 4. "Betrayal and Denial" — Judy Smith, Carroll Goodrich, Girls Chorus and Choir, 5. "The Trail" — Choir, 6. "There is a Green Hill" — Mary Lou Martin and Choir, 7, "At Calvary" — Duet, Jill and Jenny Henry, 8. "In the Cross of Christ I Glory" — Joyce Carter and Choir.

Other members of the choir are: Mary Lou Jamerson, Joan Moses, Janet Moses, Susan Ruth Jennings, Danny Hernecall, Earl Martin, Charles Wilbun, Tommy Martin, Donal Ray Mart n, Charles Wilbun, Tommy Lawson, Johnny Giles, Charles Martin.

At 11 o'clock there will be a Processional by the Chapel Choir with an Eastertide anthem presented by the choir during the service. The Easter Sermon Theme will be "The Immortal Life" and Special memorials and gifts for the New Sanctuary and Church Building will be received during the service.

Woman's Society of Christian Service

On Wednesday, April 10th, at 7:30 o'clock, the Woman's Society of Christian Service will conduct a Worship program in the Room and the six circles will meet immediately following the missionary program. Mrs. James A Smith, president, in charge of the business session.

The Committee on Nominations for Church officers for the New Conference Year, beginning June 15th at 7:30 o'clock. All members of the congregation are urged to give suggestions for the new officers effective June 1st, to members of the Committee.

A most amazing achievement has been accomplished by the entire membership and the many friends of Memorial in the erections of the new Church building and Church School facilities. The present indebtedness has been reduced to the almost unbelievable sum of $75,934.45; with regular monthly payments toward Debt - Reduction and for Interest being paid on the 15th of each month. With an actual cost of the new Church Edifice of $206,000.00 the congregation is to be highly praised and each and every person who has had a sacrifical part in the financial part of the program is encouraged by thanked for their loyalty and support. A special Easter Offering is being encouraged by all during this triumphant season of the Church Calendar Year.

6:30 p.m. Training Union
7:30 p.m. Adult Choir practice
Prayer Meeting each Wed. evening at 7:30 followed by Youth choir practice at 8.

Do You Have A Fallout Shelter?

Human beings have always sheltered themselves when they encountered the dangers. Earliest man lived in caves for protection from wild beasts, sun and snow. Our pioneer ancestors built sod houses which protected them from hostile Indian arrows. We now need shelters to ensure our protection from temporary hazards that would follow an enemy nuclear attack. Since most rural areas could not provide community shelters, nearly every rural family will need a home fallout shelter. Each family has different needs and will find different ways to meet their needs. But all will consider the same basic factors.

1. **Size.** Will your shelter be used by members of your immediate family, or will other relatives, employees or neighbors share it with you? A minimum of ten square feet of floor space per person is necessary, but more space is desirable. There must also be room in or near the shelter for storage of food, water, sanitary containers and other supplies.

2. **Location.** You might be able to use an already existing structure. Could you put a shelter in your basement? If you have no basement, could it be inside your house, perhaps in a center hallway or storage room away from outside windows or doors? Would you prefer it in the yard, either underground or above near your house or your barn? Have you a root or storm cellar which could easily be converted?

3. **Amount of Protection.** Fallout radiation can be kept out only by density and thickness of shelter shielding materials. You can reduce the hazard one-half by staying inside your house away from windows and doors, but in heavy fallout even that could be a dangerous amount. Staying in an average basement would reduce the danger to about one-tenth to one-twenth of the outside level. You can easily improve your basement by adding more shielding material, to cut radiation to one-hundredth or less of the outdoors level.

In a well constructed underground shelter with 3 feet of earth cover, the radiation levels would be one-thousandth to one-ten thousandths of the outside level. Equal protection would be provided by 2 feet of brick or 2 feet of concrete cover. Your choice of materials will depend on costs, availability, suitability to your site and ease of handling.

4. **Other Uses.** You may prefer to build a new shelter, perhaps with a dual purpose. Some people need an extra bedroom, utility room, recreation or play room storage space, a workshop, photographic darkroom or other type of room which can also serve as a comfortable family fallout shelter.

FHA loans are available, if the shelter conforms to specifications of the Office of Civil Defense, Department of Defense (booklets H-6 and H-7). It is important to build safely. The overhead weight and side pressures of some shielding materials require extra strength in supporting members. Wood supports should be pressure treated to prevent rot and termite damage. Moisture proofing can be provided by heavy plastic sheeting between wooden roof and the earth fill. Or you might prefer to use brick or concrete for an arch construction with earth. You will need good drainage and proper entrance. Ventilation which have been seized by quarantine inspectors are about an inch long and have small jewels glued to their backs. A chain is often glued to the beetle for fastening to the owner's clothing, so the beetle can crawl around as a living ornament.

Inspectors have seized several "Jewel Beetle Brooches" along the Mexican border during recent months. Customs officials recently seized nearly 300 live jeweled beetles in New York brought into th U. S. without authorization and were being sold in local bars.

Seaman Raids Local Kitchen

A kitchen prowler, with a taste for chicken, was picked up by Policeman Henry White and Deputy Sheriff Charles Rush last Wednesday afternoon about 4:30.

Rush said that the man had Mrs. Carroll, a restaurant woman, tried a variety of ways to get food and a night's lodging in Appomattox.

Carroll went to the Welfare Dept., the Sheriff's office where Rush was on duty, and then to the Appomattox Hotel where he talked with the owners. Mr. and Mrs. R. B. Haley, and then, without permission, raided their kitchen and ate a quantity of leftovers.

White said that Carroll had money in his pocket and so could not be charged with vagrancy. They said that he offered no resistance to being picked up, and told them freely of his misfortunes in trying to get to Baltimore.

Evergreen

April 4 — James Elliott Cheatham, of St. Petersburg, Fla., visited his parents, Mr. and Mrs. Z. E. Cheatham.

Mr. and Mrs. J. K. Hamilton visited Rev. and Mrs. R. T. Smith and family last Sunday p. m. at Virginia.

Mr. and Mrs. Ernest Farrar, Mr. and Mrs. J. M. Harvey visited relatives at Lynchburg last Sunday.

Recent visitors of Mrs. Ryland Staples and Mrs. D. C. Paulette were Mrs. Lois Calhoun, Mrs. Lawrence Falwell, Mrs. Ray Calhoun, all of Lynchburg.

Mr. and Mrs. W. C. Garrett visited Mr. and Mrs. Thomas Paulette and family last Sunday afternoon, Phenix.

Miss Wanda Kay Legrand, of Richmond, spent the week end with her father, Mr. A. A. Legrand.

Mrs. May Sullivan, of Lynchburg, spent the week end with her parents, Mr. and Mrs. G. W. Glover.

Mr. and Mrs. Donald Dixon and family visited relatives at Greensboro, N. C. last week end.

Recent visitors of Mr. and Mrs. Courtney Franklin and family were Mr. and Mrs. Clarence Franklin and family, of Prospect, Mr. and Mrs. Jack Hodges and family, Mr. and Mrs. Bill Taylor, Mr. and Mrs. Jesse Franklin and daughter, Virginia Lee.

Mrs. Eva Snowden, of Port Royal, is visiting her son and family, Mr. and Mrs. E. T. Bruce.

Mr. and Mrs. Dillard Ferguson of Goochland, visited Mr. and Mrs. Edward Austin and Allen last week.

Mrs. J. C. Staples, Mrs. S. R. Paulette, Mrs. Z. E. Cheatham visited Mrs. Will Richardson, who is on the sick list last week.

Jeweled Beetles

Jeweled beetles are posing an agricultural inspection problem. The U. S. Department of Agriculture, says a large number of decorated live beetles, to be worn as costume jewelry, are being intercepted at United State borders.

The jeweled beetles are being prepared and sold as curios in Mexico. As they die which have

YEPCO Reports Staff Changes

Virginia Electric and Power Company today announced Charles T. Snellings director of purchases. He succeeds L. E. Davis, who retires April 1. Robert A. McKay, Jr., mechanical supervisor at Yepco's Possum Point power station, will succeed Snellings as assistant to the purchasing agent responsible for the purchase of fuels for electric steam power generating stations. The appointments are effective April 1.

Snellings, formerly assistant to the purchasing agent, joined Yepco's Purchasing Department in 1953 after several years with the purchasing department of an engineering firm. His responsibilities at Yepco have been primarily connected with the purchase of fuels, principally coal for the company's steam powered generating stations.

McKay, a native of Baltimore, Md., joined Yepco in 1940 as a statistician. He later served as efficiency engineer before he was named to his present post in 1961. He attended William and Mary College.

FFA Initiates Twenty-Five Members

Twenty - five members of the Robert E. Lee Chapter of the Future Farmers of America were initiated at the regular meeting, Thursday, February 21. The Chapter Farmer Degree, which is symbolized by a silver pin, is the highest degree that a local chapter can confer upon its members. The other two degrees that of State and American Farmer are awarded by the State and National Associations respectively.

To receive the Chapter Farmer Degree a member must have earned or produced investment at least $50., be familiar with local and state programs of work, have completed one year of supervised farming, be able to lead a group discussion, be familiar with parliamentary procedure, have under way a satisfactory program of supervised farming and receive a majority vote of the members.

Those who received the Chapter Farmer Degree were: Bobby Ballenger, Norman Booth, Raymond Bryant, Fulmer Burks, Harold Cheatham, Ralph Cheatham, Gene Chandler, James Farrar, Preston Ferguson, Billy Guthrie, Richard Harris, Harold Johnson, Carrol Mann, Gena Martin, Billy Moore, Miller Morris, Delly O'Brien, Lawrence Phelps, Clyde Powell, Donald Puch, Ralph Reynolds, Henry Webber, Edwin Stanley, and Gene Williams.

Parents — Rate your youngsters honestly before letting them drive. Are they really skilled and confident or are they only half-trained and apt to panic in an emergency? The results can be tragic.

"All-Important Folder"

Tests, Courses Explained To Eighth Graders' Parents

A large group of parents and teachers overflowed the library of the Appomattox High School on Monday evening to hear information about the local school efforts to high school students.

Each eighth grader is asked to look over the courses offered by the school, check his choices of future subjects, and return the sheet made only to groups who are unable to obtain the credit they need from other sources on reasonable terms.

Principal Frank Chuchek stated that it would be preferable if the parents of the student came with him to confer with Mrs. Carrie Gilbert or Mr. Walter Carson, guidance counselors in the school and with Chuchek, also, if schedules permitted.

"Measuring High School Success"

Mrs. Carrie Gilbert, teacher and guidance counselor, spoke first. "We can't make pupils study," she said, "but we can, with parent's help, assist the student to become the most vital person he is capable of becoming."

She listed some of the tests administered to high school students. STEP is an achievement test; SCAT "School Aptitude Ability Test) is a "predictor" of success in college, many of which are given to 9th and 11th graders. Tenth graders take college boards, she said, and both Juniors and seniors are given every opportunity to take scholarship tests in order to qualify for college training.

Home Economics Department

Mrs. L. E. Thomas told parents that her department no longer "merely" teaches "sewing and clothing." She said that Home Ec students have an "unlimited field" as home economists, and that thousands of positions will be open to college graduates this year in the field of teaching, extension work, industry, and social service. She mentioned also an elective subject each year 8-12.

Typing For Almost Everyone

The value of typing sonal and business use ed out by Mrs. James B and is offered from 9th and 12th grades. Principal chek said that the partment is one of the termiest courses and a ful graduate should be assume a position in the world.

Henry Pack, speaking Agriculture Department that "we are placing emphasis than before on cal skills or 'Shop' to boys for immediate emp

Three new initials re from Montgomery. Distributive teaches students 16 age and up about retail and how to market a ne service. Industrial Co Training is "on the Job for a student willing to ed," Montgomery said.

All-Important Folder

Principal Chuchek stressed the importance of the "all important folder" kept for each A student. The Armed Forces inquiries of students, and numbers of employers, who visit the school to "see a child's folder," he said, would like to see all of some of them at all o "Your high school record is your future," he said. "We try to make it as we can," but he noted ment standards determinet. Chuchek paid tribute to the "practical courses" that even the most brilliancer must be able to ctrate ability with his put his ideas across. pointed out the value of ing skills, and pointed out an elective subject each year 8-12.

Loans For Shifts In Land Use

The Farmers Home Administration, under the provisions of the consolidated Farmers Home Administration Act of 1961 as amended by the Food and Agriculture Act of 1962, makes loans to groups of farmers and rural residents for shifts in land use. These loans can be used to develop recreational facilities, grazing areas and forest lands. Technical management will be provided with each loan.

Loans are made only to groups who are unable to obtain the credit they need from other sources on reasonable terms.

Organizations operating on a nonprofit basis, such as: nonprofit corporations; irrigation, water supply, soil conservation and drainage districts; recreation associations; and small country towns and other rural political subdivisions are eligible for loans when:

1. They are unable to obtain credit elsewhere.

2. The proposed facility primarily services farmers and rural residents and not direct use or by economic benefits.

3. They have legal capacity to borrow and repay money, to pledge security for loans and to operate the facilities or services to be financed with loan funds.

4. They are financially sound and will be effectively organized and managed.

A person who lives the year round in the open country or a small rural community with a population of not more than 2,500 is a rural resident, eligible for this type loan.

Loan funds may be used to finance shifts in land use including:

1. The conversion of cropland to grazing areas and forests and the conservation of land to uses that promote better conservation of soil and water resources.

2. Reorganization of farm management units, grazing areas or districts or irrigation areas.

3. Development of wildlife areas.

4. Development of recreational areas, including the development of: ponds, lakes, picnic areas and parks; sports areas including athletic fields and facilities, golf courses, target ranges and ski slopes; camping facilities, such as tent platforms, dining halls, cabins, electric and water connections for trailers and sanitation facilities and roadways.

Also, forest trails and natural scenic attractions; fishing waters together with boats, docks and other related facilities; hunting areas and preserves; access roads necessary to connect recreational areas with public roadways, and parking areas in connection with recreational facilities.

Applications for loans are made at the local county offices of the Farmers Home Administration. The county supervisor in charge of the office will be glad to discuss services available from the agency and explain how to prepare a written application.

An association's total indebtedness cannot exceed $500,000 when the loan is made from appropriated funds and $1 million when made from insured funds.

Loans are scheduled for repayment within the shortest time consistent with the borrower's ability to pay. The maximum term on all loans is 40 years. However, no repayment period will exceed any statutory limitation on the association's borrowing authority nor the useful life of the improvement or facility to be financed.

The interest rate on a direct loan is 4½ per cent. The interest rate on insured loans varies but may not exceed 5 per cent.

All loans to associations will be secured in a manner which will adequately portects the interest of the government. Mortgages will be taken on association facilities when state laws permit. Bonds or notes pledging taxes, assessments or revenues may also be accepted as security if they meet statutory requirements.

The Farmers Home Administration will assist the applicant in making preliminary determinations regarding the engineering feasibility, economic soundness, cost estimates, organization, financing and management matters in connection with the proposed improvements.

After preliminary determinations have been made, applicants will be expected to provide the technical services necessary to design the improvements, prepare estimates of costs and complete arrangements for organization and financing. However, if the applicant lacks the resources to carry out this work, the Farmers Home Administration may provide additional technical assistance.

If a loan is made, the Farmers Home Administration will make periodic inspections to see that funds are used as agreed upon and that construction meets approved standards.

Speaks To Credit Association

Hubbard Describes Russian Tour

Maury A. Hubbard, executive secretary of the Virginia Farm Bureau, spoke to the stockholders of the Production Credit Association, and the Federal Land Bank Association, at their annual meeting Saturday, March 23, in the Farmville Memorial Armory.

Hubbard, who recently returned from a 21-day European tour, which included 5 days in the USSR and 4 other communist countries, spoke on "Lessons Learned from Behind the Iron Curtain in the USSR." The lecture was illustrated with slides.

He said that contrary to public opinion "there is no excuse on the USSR." It is a country that has been unable to know how much about what has, and is going on. J. Edgar Hoover, he said that the political powers in the USSR are all "masters of deceit."

Hubbard's group flew from New York City to Brussels, Belgium. There they were briefed by the American Ambassador to Belgium, Douglas McArthur, II, on the political and economic market situations in the countries in which they were to travel. Since it is the custom for groups of this kind to present gifts to the countries in which they travel, Hubbard's group presented Ambassador McArthur with a copy of the Declaration of Independence, and some earth from Jamestown and "Monticello."

The group flew from Brussels to Moscow. Hubbard said that the jet airliner on which they flew was manufactured in Russia. He said that from all outside appearances the plane was exactly like the Belgian plane that took them from New York to Brussels. However, it was the inside of the plane that told the story. He said that the interior was not nearly as comfortably upholstered as was the Belgian plane. The pilot did not follow the normal procedure of going to the end of the runway and racing his motors for a gradual run-up. He went to the end of the runway and "Zoom—we took off at once, at a 35 degree angle." "Believe me," Hubbard said, "you knew you were leaving the earth in that plane."

Hubbard said that in Moscow the group saw mile after mile of Soviet housing units. Very few people live in their own homes. There are two main reasons for this. These units provide cheaper housing, and they offer an easier means of controlling the people. One control of the people is not a new convention of the communists. The people of the USSR have never known anything but political oppression, under the Czars and communists.

Hubbard said that most of the buildings in Moscow were very drab and unimpressive. There were three exceptions to this; the famed Bolshoi Ballet Theater, the buildings at the University of Moscow, and the cathedrals inside the Kremlin.

Moscow University has over 23,000 students. Before a student enters the University he is very carefully indoctrinated with Marxist ideals. This is the way the communist party functions. They take young, highly impressionable minds, and fill them with nothing but Marxist Communism.

The Kremlin, which means walled fortress in Russian, is the seat of the government. It is brick wall on about 70 acres of beautifully landscaped grounds.

One of the cathedrals in Moscow, now used as a museum is the beautiful Saint Basil's. When this building was completed the Czar rewarded the architect in a very strange way. To show his appreciation, the Czar had the architect's eyes put out so that he could never design another building that would rival Saint Basil's in beauty.

While they were in Moscow, the group attended a Baptist Church service. There were over 2,300 people in the church for both services on the Sunday that Hubbard worshipped there. The minister told them that this was quite normal. There is always an overflow. The people of Moscow, and the Russian people, in general, still attend church. However, the practice is frowned upon, and discouraged by the government.

The Russian farms are nothing like even the smallest farm found in America. All farms are operated by the Kremlin, and as Hubbard said, "the Kremlin is not a good farmer." The farms are run by inmates who are responsible for producing a specified amount of products each year. All profit goes to the government. The tenants are not paid in cash, but are allowed to keep part of what they produce. If a farmer produces more than his allotment, he is given a special reward. His picture is placed on display with a note of thanks from the government for outstanding service.

You will often find a team of oxen working along side a piece of modern farm equipment. Women do much of the work on these farms. In fact, women do all types of work in Russia.

From Moscow, the group flew to Budapest. The people there are quite different from the Russian people, according to Hubbard. In Moscow, the people, especially the women, were very plainly dressed. Even though Hungary is a communist country, the women in Budapest were beautifully gowned. There is still a spark of the old life in Budapest, but you can tell the communist are at work. The people are friendly, but they are extremely careful.

The tour also included a few days in Warsaw, Poland, and Berlin, (West and East) Germany.

During the business session two men were elected to the board of directors of the Production Credit Association. They were: H. E. Boswell, and A. M. Wathe. E. R. Forest, jr., and C. I. Elliott were elected to the board of directors of the Federal Land Bank Association.

The PCA closed 662 loans in 1962, totaling $2,839,951, and reported a net worth of $439,704 at the year's end. The year's net earnings amounted to $13,585.

The FLBA had a net operating income of $1,000 and closed 48 loans during 1962 amounting to $542,700. The long term credit organization's total assets in loans outstanding on December 31, 1962.
